

Fence low house

Fence low house is one of the play panels from the IKC fencing collection. This type has the shape of a house with a roof and a window. This lower version the fence ensures that parents can always keep a watchful eye on the children while they're playing.

To ensure a stable product we recommend using a 90 degree angle every two panels (1).

A beadstree table or dashboard panel is also a good way to ensure stability. (2)
